

EDIE Utility Initiative 2021 Steering Committee Priorities

Priority #1: Support (virtual) community collaboration and cross organizational care coordination

- Annual Payer Collaborative
- Annual Behavioral Health Collaborative
- Other stakeholder collaboratives (TBD)

Priority #2: Optimize the meaningful use of Collective Platform through technical assistance and resources

- Quarterly Best Practice Webinars
- Expanded resources/toolkits on HIT Commons website
- Quarterly HIT Commons Newsletter & Quarterly Data Dashboards (Apprise & Collective Medical)

Priority #3: Continue to monitor and develop core technical infrastructure: Facility ADT feeds, leveraging SMART on FHIR integration, and other key areas.

- Ongoing monitoring of hospital/facility ADT Feeds
- Information and resources to support Collective Medical integration via SMART on FHIR

Priority #4: Leverage the Collective Platform to support key initiatives and use cases

- Public health data sharing, e.g., COVID-19 status & vaccine data
- Housing insecure data via HMIS systems
- Cohorts to support CCO IET Incentive Metric
- Overdose notifications
- Jails/Corrections onboarding (TBD per OHA and Collective Medical)
- EMS onboarding (TBD per OHA and Collective Medical)
