Data Definitions

Organizations and Users

Platform Activity

Partner Organizations	Both community-based organizations (CBOs) and clinical/healthcare in-network organizations that are users of the Unite Us software. Any in-network program that is set up to receive closed-loop electronic referrals through the Unite Us software.	Accepted Referrals	In-network electronic referrals that have been accepted by a receiving network partner.	
Programs				
Percent of Programs Receiving Referrals	Percent of in-network programs that are set up to receive closed-loop electronic referrals through the Unite Us software.	Total Referrals		In-network electronic referrals sent between any in-network partner on the network. This does not include out-of-network cases or assistance requests.
Engaged or Cultivated Potential Partners	Organizations that are actively exploring adoption of the Unite Us Platform, and those who have submitted a partner registration form.	Unique Clients Served		Clients can be served with referrals, out-of-network cases, or assistance requests.
Licensed Users	Includes all network users who can send and/or receive referrals. This no longer includes "Resource Directory Only" users.	Closed Cases		Cases are created through referrals, out-of-network cases, or assistance requests. Once an outcome is known, a case is closed.
